

OBJET:

This notice explains how CCRMN users can recover their data

DIFFUSION:

All CCRMN users who have a Lyon1 university informatic account

DESCRIPTION

On Windows 7

Connecting to the CCRMN network drive will allow you to access it directly from the "Computer" tab or through the file explorer on your computer without having to fill in the drive's network address each time you want to retrieve your data.

- 1.Open the "Computer" tab by opening the Start menu and then clicking on the "Computer" icon or press the Windows and E keys simultaneously.
- 2. Click on the "Map network drive" button at the top of the screen.

On Windows 10

How to connect a network drive

- 1. Open the file explorer. This can be done directly from the windows toolbar, through the Start menu or by pressing the Windows and E keys simultaneously
- 2. Select "this PC" in the left menu, then click on the "Map network drive" button in the ribbon at the top of the screen.

OK Annuler					

If your "firstname.lastname" login does not work, you can try "p" followed by your Harpege number with no space.

• 7. If nothing works, you can try using our VPN. You can ask for it on http://cisr.fr/ (click on /guichet/demande de support). It is quick and easy to install.

Do not hesitate to contact us if you encounter any problem. We will come and help you : ccrmn@univ-lyon1.fr

Map Network Drive on Mac

- 1. Open the Finder app.
- 2. Visit the Go menu then Connect to Server...
